

Spray & Wipe

Description

Spray & Wipe removes smears, finger marks, biro and water based ink marks, smog, tobacco tar residues and other soil deposits from hard surfaces. It produces a sparkling, streak-free finish and leaves behind a zesty sweet fruity fragrance. It may safely be used on laminated surfaces, whitegoods, walls, porcelain, chrome and stainless steel surfaces, ceramic tiles and glass including windows and mirrors. Spray & Wipe will not damage paintwork, upholstery or rubber. However, prior to use on clear plastic surfaces such as Perspex, acrylic or polycarbonate, perform a spot test on an inconspicuous area in order to ascertain whether or not the Spray & Wipe attacks the plastic. Spray & Wipe does not contain ammonia, and is therefore suitable for use by people who react adversely to ammonia mists. The surfactant contained in Spray & Wipe is biodegradable.

Application

SPRAY & WIPE does not require diluting. Apply SPRAY & WIPE directly onto surface to be cleaned and wipe with a clean cloth. SPARY & WIPE is safe to use on most surfaces including walls, bench tops, doors, stove tops, microwaves, fridges, sinks, vinyl tiles and shower screens.
